

## Company Introduction:

Sino Biological is an internationally recognized reagent supplier and contract research organization. Sino Biological's core technology platform is its in-house developed mammalian cell-based recombinant expression system. The system employs a range of proprietary reagents and processes, enabling high-efficient production of antigens and antibodies. The current catalog includes 10,000+ recombinant antigens, along with 2,000+ unique clones of monoclonal antibodies.

Sino Biological is dedicated to support SARS-COV-2 research. The company's antibodies and antigens have been widely used to manufacture rapid antigen and antibody tests. Many of them have received the EUA from the FDA.

Sino Biological's manufacturing facility is in Beijing, China, while its US headquarter is in the greater Philadelphia area. The company is undergoing a major expansion. There are multiple positions available in Boston, California, Texas, Washington, and Beijing.
